EDUCATION

The University of North Carolina at Chapel Hill

PhD in Computer Science

Advisor: Mohit Bansal

Thesis: [Interpretable and Controllable Language Models](#)

Fall 2019 – May 2024

Chapel Hill, NC

Duke University

BS in Statistical Science | Minor in Mathematics

Fall 2015 – Spring 2019

Durham, NC

EXPERIENCE

Anthropic

Resident | Supervisor: Dr. Sam Bowman

Summer 2024 – Present

San Francisco, CA

Allen Institute for AI

Research Intern | Supervisors: Drs. Sarah Wiegrefe and Peter Clark

Summer 2024

Seattle, WA

Google Research

Student Researcher | Supervisors: Drs. Asma Ghandeharioun and Been Kim

Summer 2022

New York, NY

Meta FAIR

Research Intern | Supervisor: Dr. Srinivasan Iyer

Summer 2021

Seattle, WA

RESEARCH INTERESTS

AI safety, NLP, interpretability, model editing, scalable oversight, multi-agent communication

AWARDS

Outstanding Area Chair (ACL 2023), Association for Computational Linguistics 2023

Recognition for metareviews for the ACL 2023 conference, “comparable in scope to the best paper awards policy (1-1.5% of the pool of reviewers and chairs)”

Google PhD Fellowship (Natural Language Processing), Google 2021

Fellowship awarded to six students globally for research in Natural Language Processing, providing up to three years of full funding

Royster PhD Fellowship, UNC Chapel Hill 2019

University fellowship awarded to one student in the 2019 cohort of UNC Chapel Hill computer science students, providing three years of full funding

First Prize in the PoetiX Literary Turing Test, Neukom Institute, Dartmouth College 2018

Awarded to the top submission in an open competition for algorithmic sonnet generation hosted by Dartmouth’s Neukom Institute

Nomination for Undergrad TA of the Year, Dept. of Statistical Science, Duke University 2018

One of five undergrad nominations from faculty for the department’s TA of the year award

A.J. Tannenbaum Trinity Scholarship, Duke University 2015

A full academic merit scholarship awarded to one student from Guilford County, NC

LEADERSHIP

Research Mentoring	<i>Spring 2020 – Fall 2023</i>
<ul style="list-style-type: none"> • Mentored Vaidehi Patil, an early-stage PhD student, resulting in an ICLR 2024 Spotlight paper • Mentored Zhuofan Ying, now a PhD student at Columbia, resulting in two projects published in NeurIPS • Mentored Harry Xie, now a PhD student at CMU, resulting in two projects published in Findings of EMNLP and NeurIPS 	

Wilson Center AI Policy Pipeline Program*Fall 2022 – Summer 2023*

- Researched policy issues in explainable AI and practiced memo writing for AI policy
- Completed policy-making training with the Wilson Center Science and Technology Innovation Program, including educational sessions with current staffers and policymakers

Computer Science Student Association*Summer 2020 – Summer 2022*

Officer

Chapel Hill, NC

- Organized social events for grad students including tea times, bar nights, and shared meals
- Observed faculty teaching to provide feedback in tenure review
- Recorded meeting minutes for CS faculty meetings to share with graduate students

Startup Technical Advising*Fall 2019 – Fall 2021*

- curalens.ai: advised Curalens on text generation strategies for a therapeutic chat-bot (note: Curalens also advised by domain experts)
- [Acta](#): advised Acta on approaches to automatically summarizing crowdsourced constituent feedback for efficient communication to local governments

Effective Altruism: Duke*Spring 2016 – Spring 2019*

Co-President

Durham, NC

- Moderated weekly discussions related to Effective Altruism, the social movement centered on maximizing the good you can do for the world
- Recorded over 15 Giving What We Can pledges (10% of all future income) in pledge drives and over 30 One For the World pledges (1% of future income)
- Organized lectures and reading groups on AI safety for Duke and UNC Chapel Hill students
- Led club from 9 to 30+ active members over my tenure as Co-President
